Make a few **simple slides** about your short paper. Your presentation should. . .

- **Describe your theorem:** Tell us about the result.

- **History?** Maybe tell us about some history or a historical figure.

- **Examples?** Maybe give an example or two illustrating how the theorem holds or fails in certain circumstances.

- **Applications?** Maybe tell us about some applications of this theorem. Why is it important?

Bibliography Slide:

- Resource 1

- Resource B

- Resource $\sqrt{2}$

The End
